

# Turners Hill C of E Primary School

Turners Hill School have had a very exciting start to 2014. Each term the children are involved in a 'green week'. This term, we invited the Town Mayor, Margaret Belsey to open the new chicken coop and beehive. We installed the new coop in memory

of John Milham, who sadly passed away two years ago. He worked very hard with the school for more than ten years, helping the children look after the chickens, taking the children on environmental walks and supporting the staff and children to grow fruit and vegetables.

The event was very successful and involved the choir singing and our older children taking part in an 'egg drop'. The children thoroughly enjoyed designing and making their structures, with the aim of saving an egg after having it being

dropped from a height of two and a half metres. Some of the groups were more successful than others!!

I would like to thank the parents who are looking after the chickens during the weekends and school holidays. We would not be able to provide the children with such a rich curriculum without their support.
